

# MTAC 138

September 10, 2014

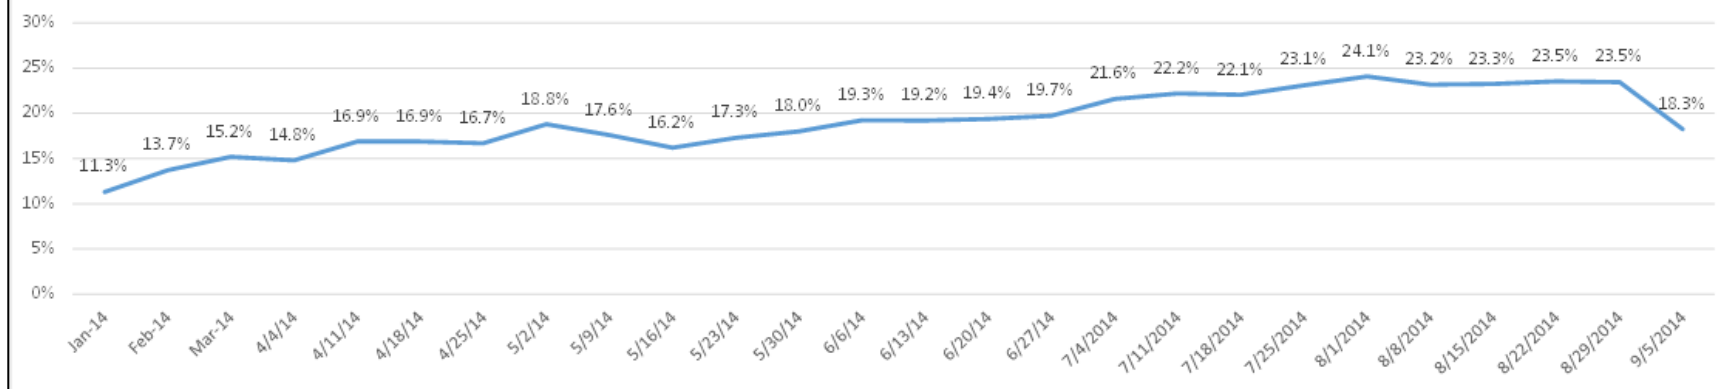

- **Roll Call + Meeting Minutes**
- **eInduction Status**
- **eInduction Systems**
  - Explain How SASP and *PostalOne!* Interact
  - Mail.XML Test Cases
- ***PostalOne!* Mailer Outage Process**
- **IMDAS Mailer Shipment Solution Update**
- **Action Items**
- **Questions**

- **Roll call for meeting minutes accuracy**
- **Minutes from August 21<sup>st</sup> meeting will be posted on MITS**
- **Questions or concerns?**

eInduction Adoption

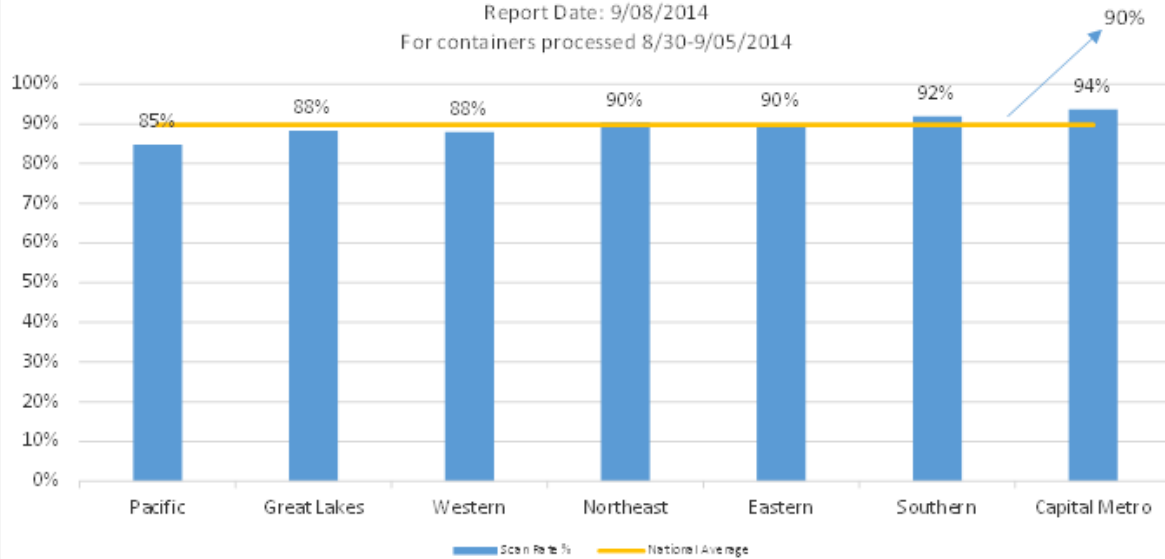

% Appointments w/100% eInduction Containers

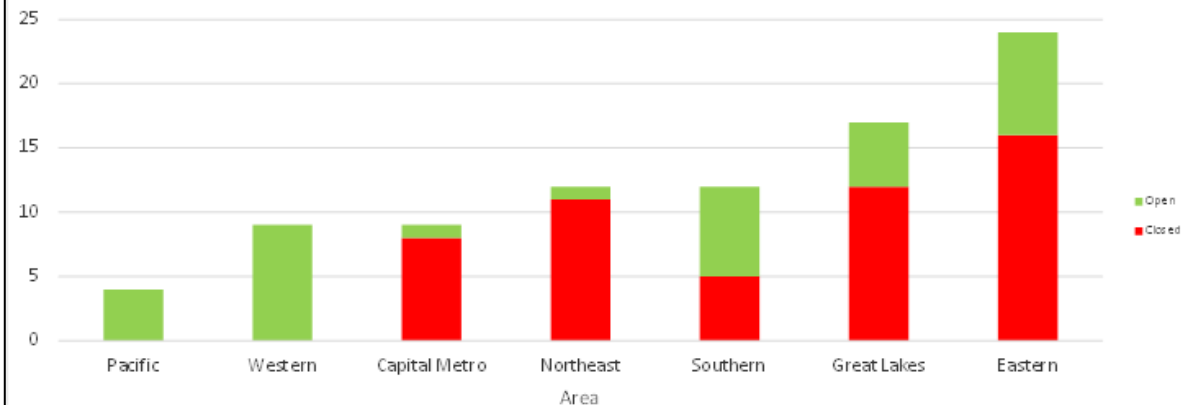

## PVDS Scan Compliance % by Area

Report Date: 9/08/2014

For containers processed 8/30-9/05/2014

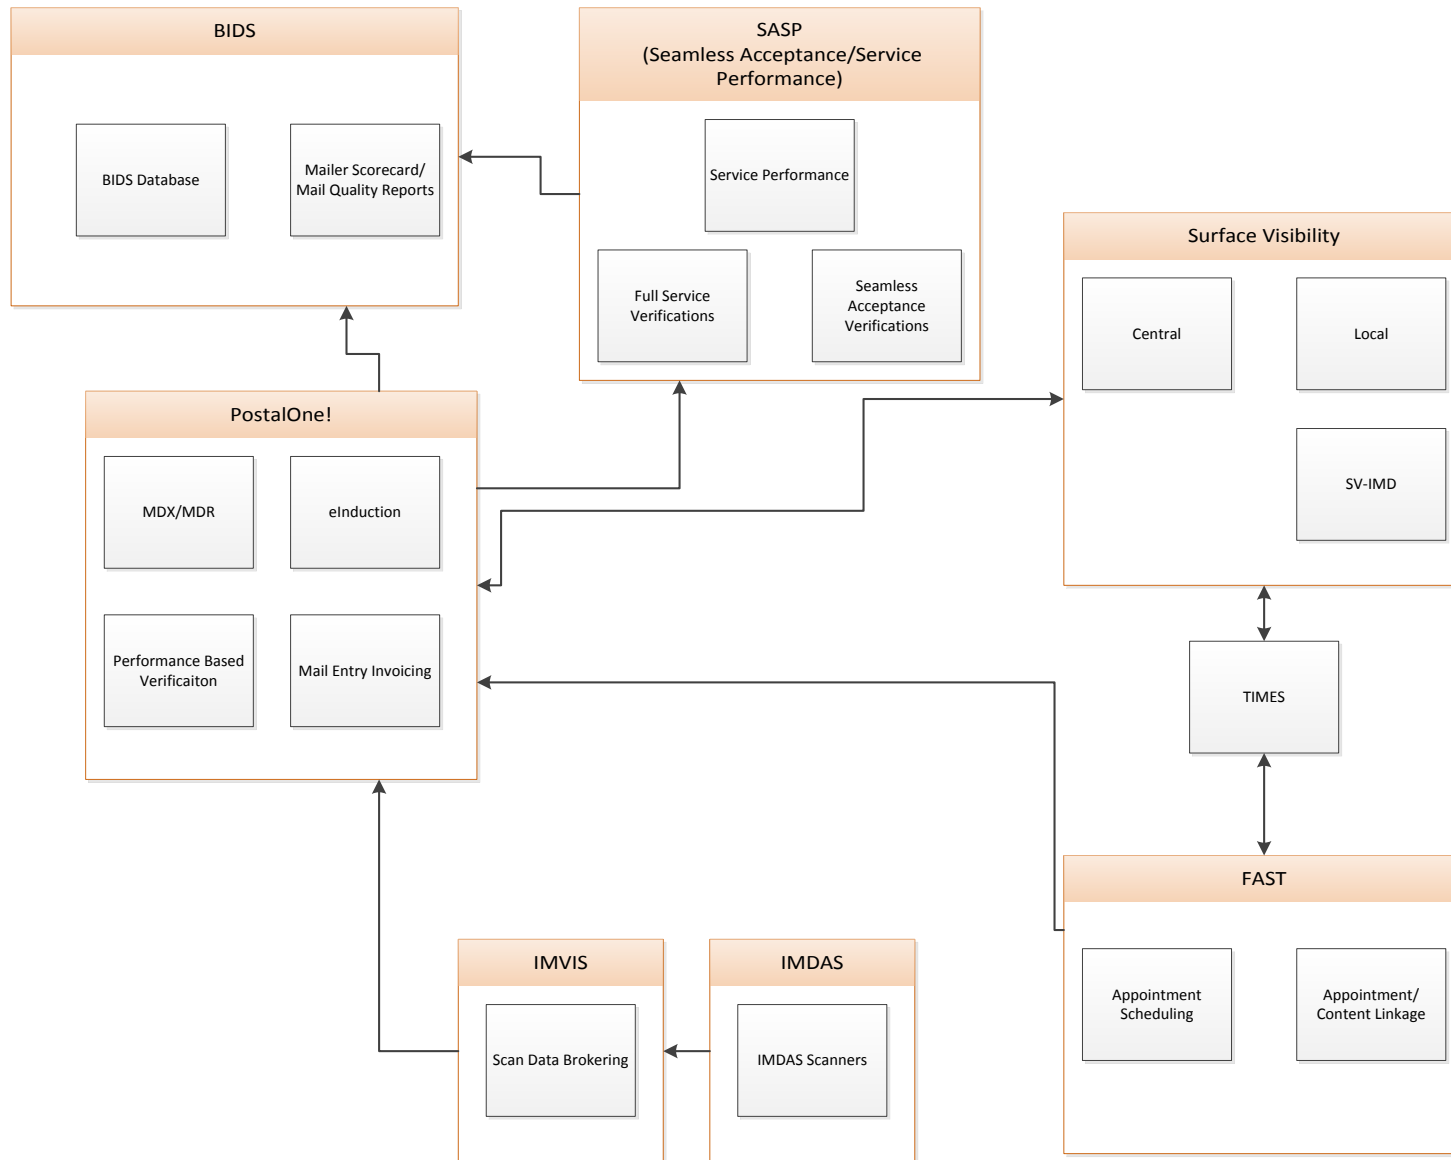

## Process Compliance Issues 8/30 - 9/05/2014

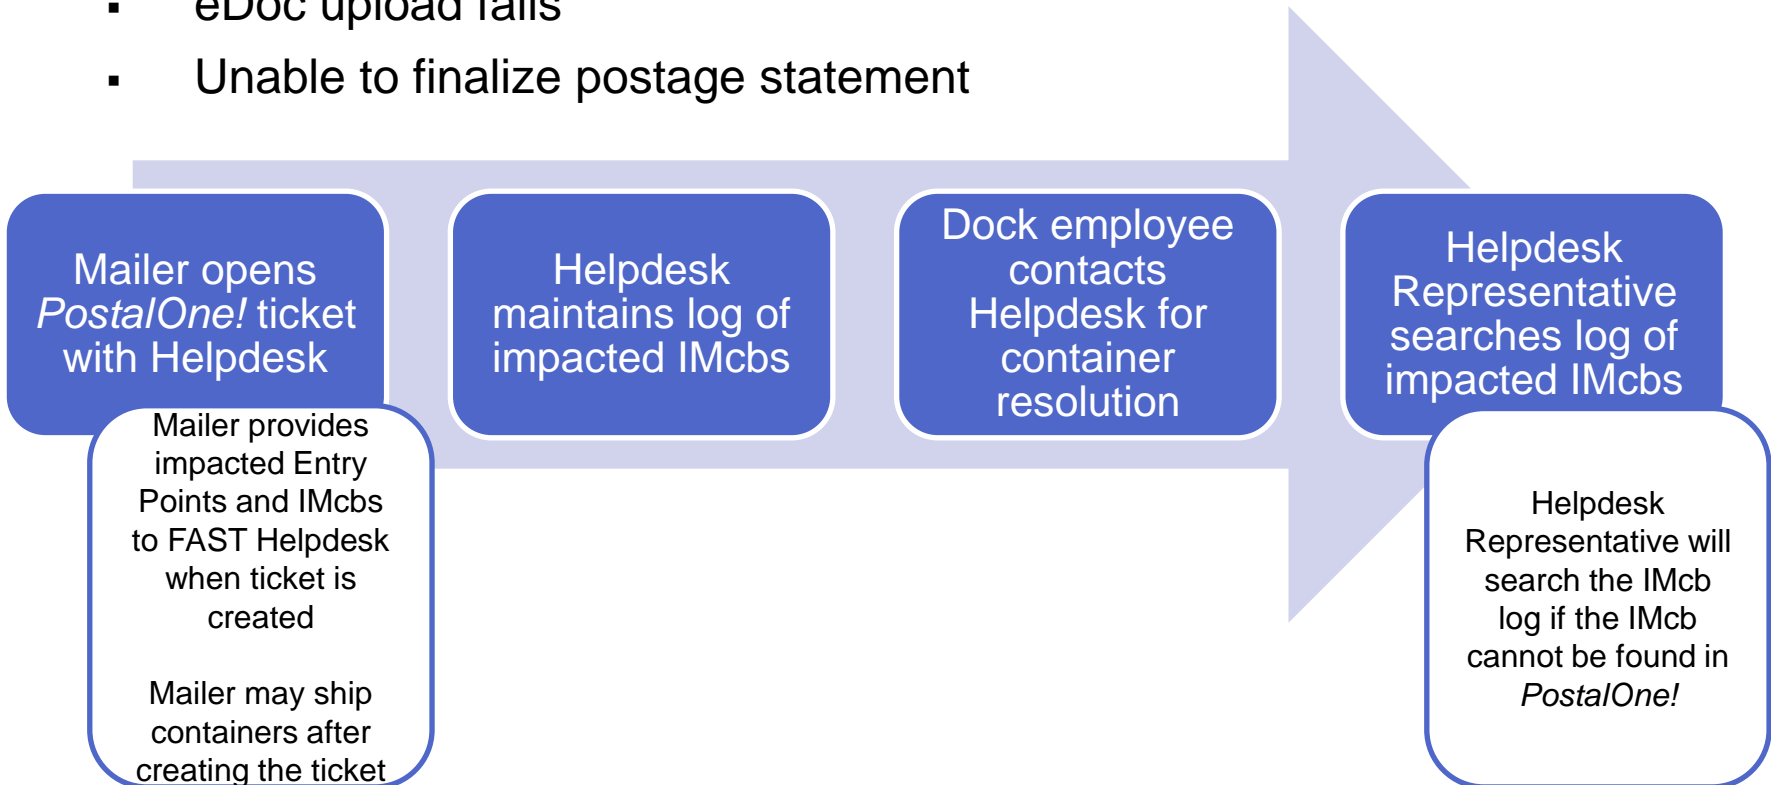

# eInduction Systems

## Explain How SASP and *PostalOne!* Interact

- **The following process is proposed for local *PostalOne!* outages:**

- eDoc upload fails
- Unable to finalize postage statement

- **Confirm what information would need to be supplied by the mailers to:**

*PostalOne!* Helpdesk

FAST Helpdesk

**Provide the HelpDesk with the following information when Remedy ticket is created:**

**Option 1**

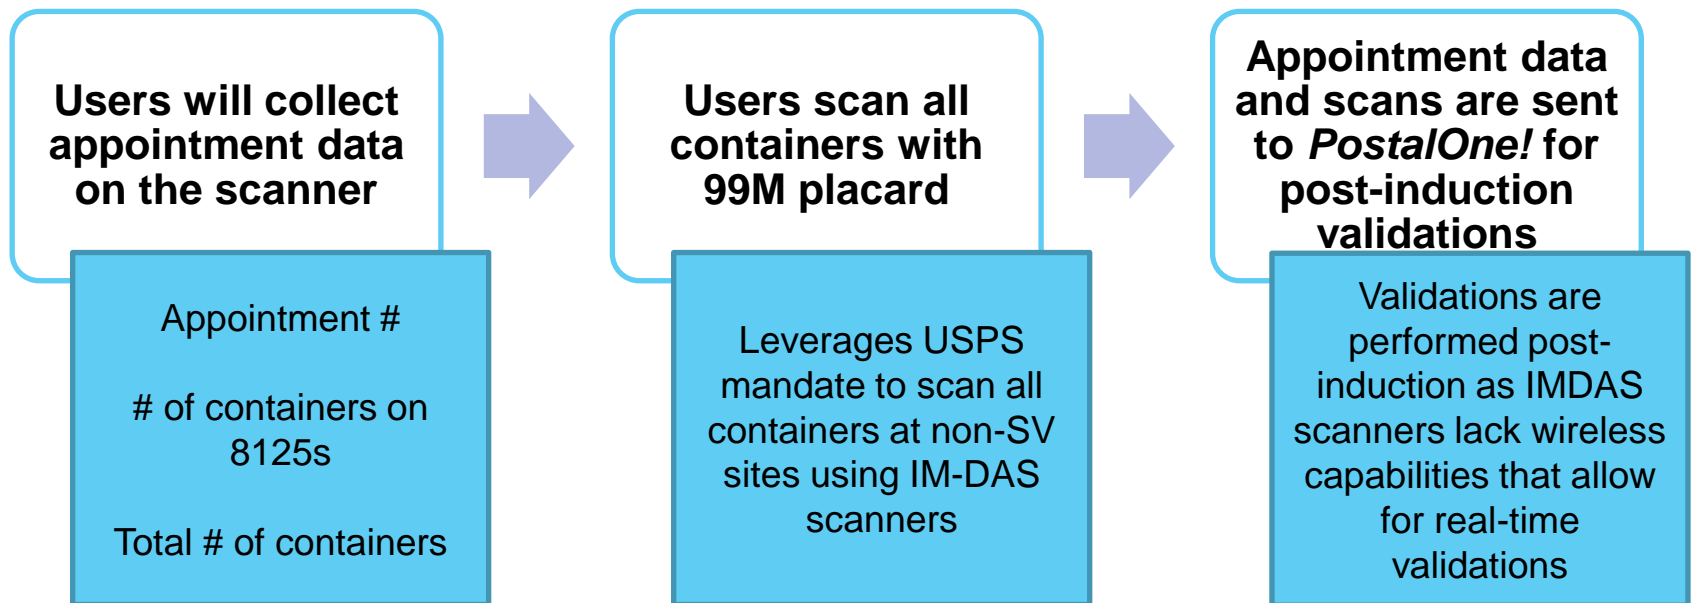

- Remedy Ticket Number from *PostalOne!* HelpDesk
- CSM file from mail.dat

**Option 2**

- Remedy Ticket Number from *PostalOne!* HelpDesk
- Excel document containing:
  - Entry Facility
  - Locale Key
  - Pallet/Container ID (21-digit 99M IMCB)

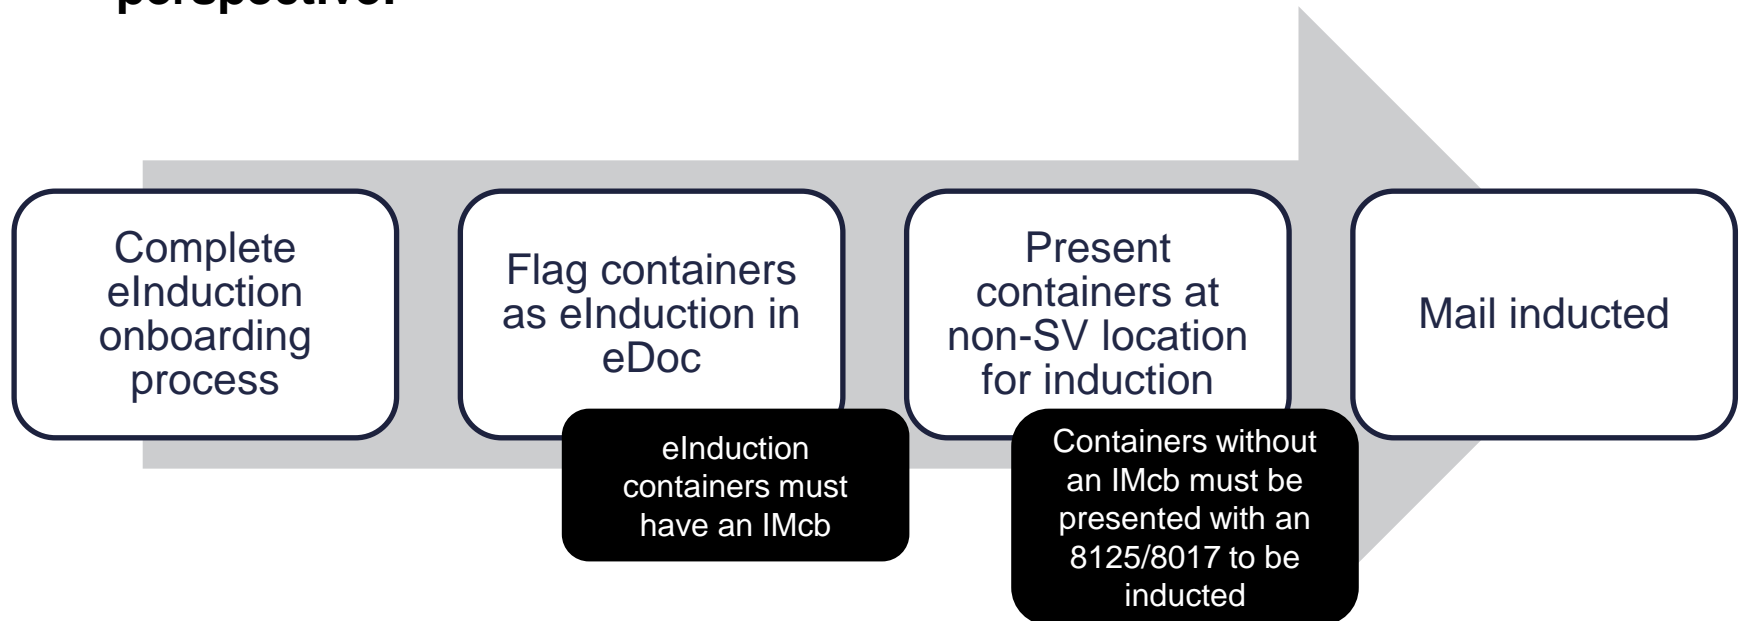

- **IM-DAS is the scanning solution used at non-SV locations**
- **High level process flow:**

- **Pilot will begin next Monday, September 15 at over 25 non-SV locations and Destination Delivery Units (DDUs)**
- **Goal is to deploy nationally by the end of October 2014**

Provide description of the requirements for the production flow at the plant for non-SV sites from a mailer perspective

- **IMDAS Mailer Shipment Solution requirements from a mailer perspective:**

- Refer to the [Mail Entry Roadmap](#) or [eInduction Guide for Mailers](#) for additional program and mail preparation requirements

- **eInduction reports will be covered as a part of *PostalOne!* release 38 external user training**
- **Release training dates and times will be communicated by the MEPT Team via:**
  - DMM Advisory
  - Industry Alert
  - *PostalOne!* external users distribution list
  - User Group 1
  - and RIBBS

- **Per the R18.0.0 *PostalOne!* Release Notes, Version 4.1 mailers are now able to input ORIGIN into the entry point locale key field**

#### **8.2.10 Software Updates Enabling Correct Status of Origin-Entry Containers**

For origin entry containers, *PostalOne!* and SV will support the use of "origin" in the entry point local key field. This change allows SV to make "origin" container data visible to all entry points and prevent incorrect container status. Logical Mailers may deliver "origin" containers to any entry point without triggering the misshipped validation.

- **Containers with a locale key value of ORIGIN:**
  - Will not be logged as mis-shipped
  - Will be released to all SV entry points and will scan as Expected if payment has been received

- **OPEN ITEMS:**

- ~~▪ Explain how SASP and *PostalOne!* interact~~
- ~~▪ Cancelled jobs + reporting~~
- ~~▪ Share details on EIN invoicing process with MTAC 138 group~~
- ~~▪ Schedule webinar with mailers on eInduction reports~~
- ~~▪ Schedule meeting to confirm the *PostalOne!* outage process~~
- Provide updated SV site list based on network consolidation
- Provide draft of eInduction Certification to industry
- Review and discuss the value of incentive for 100% eInduction
- For non-SV solution: Confirm if there is no content available in FAST if an error will occur
- **No EARLIER THAN AUGUST 8** - August 2014 Release
  - Provide a 1-page guide on enabling barcode-content association via eDoc for one-time appointments after CAT testing
  - ~~▪ Provide description of the requirements for the production flow at the plant for non-SV sites from a mailer perspective~~
  - ~~▪ Share August 2014 release notes with a focus on ORIGIN locale key language~~

- **OPEN ITEMS:**
  - Explain how data from non-SV site verifications are shown on report
  - Confirm *PostalOne!* data comparison for a paid container
  - Confirm there will be an Excel download option for 3<sup>rd</sup> party report
  - Provide industry feedback to *PostalOne!* regarding 3<sup>rd</sup> party report
  - Review feasibility of including error information on Mailer Scorecard around the number of eInduction containers incorrectly included on 8125 counts
  - Review IT system design to ensure that eInduction containers included on 8125 counts will not result in system failure(s)
  - Work with IT Teams to develop date range functionality for Shipping Summary Report
  - Work with SV Team to determine potential impacts of entry point scan information alignment error

**Questions?**
